# COMPANY OVERVIEW

## INTRODUCTION

Al-Manar Pipes Factory, established in 2003, is an ISO-certified company specializing in the development, manufacturing, and distribution of a wide range of plastic piping systems, including UPVC, CPVC, PE, and PPR pipes and fittings. The company aims to be a global leader in producing high-quality pipes and fittings, making it one of the most preferred manufacturers and exporters in the region.

**CEO OF MANARCO**

**ALI ALMONEEF**

# OUR COMPANY ABOUT US

With a focus on quality and sustainability, Al-Manar produces a wide range of products, including UPVC, CPVC, PPR, and HDPE pipes and fittings. Our products are designed to meet the highest international standards, such as ISO, SASO, and WRAS, ensuring durability, safety, and efficiency for our clients across various sectors.

## 1 INDUSTRY LEADERSHIP

Established in 2003, Al-Manar Plastic Pipes Factory is a leading manufacturer and supplier of high-quality plastic piping systems in the Middle East.

## 2 PRODUCT EXCELLENCE

Specializes in producing UPVC, CPVC, PPR, and HDPE pipes and fittings that meet international standards like ISO, SASO, and WRAS, ensuring safety, durability, and efficiency.

## 3 CUSTOMER COMMITMENT

Focused on delivering innovative and reliable solutions tailored to sectors such as water supply, drainage, telecommunications, energy distribution, and industrial applications.

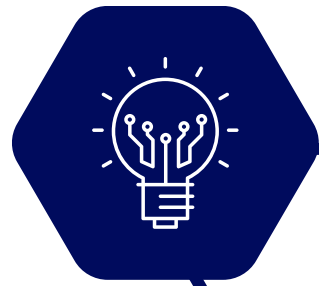

## 4 SUSTAINABILITY AND GROWTH

Driven by cutting-edge manufacturing, sustainability, and a commitment to infrastructure development, both locally and globally.

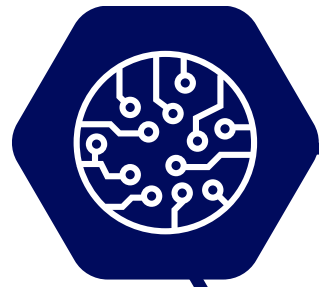

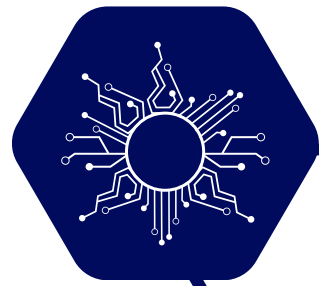

# OUR COMPANY COMPANY VALUE

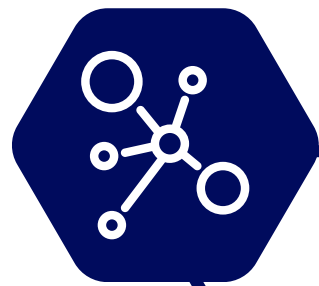

**Innovation and Excellence:** We strive to be a global leader in producing high-quality UPVC, CPVC, PPR, and PE products at affordable prices, continuously improving and innovating to meet market demands.

**Customer Focus:** Our mission is to enhance the quality of life by providing cost-effective solutions for the protection and flow of water and energy, addressing the diverse needs of our clients

**Lorem ipsum dolor sit amet, consectetur adipiscing elit. Duis nec massa nulla. Vivamus tempor ante eget nisi molestie imperdiet.**

**Sustainability and Growth:** We are dedicated to sustainable practices that contribute to infrastructure development locally and internationally, ensuring long-term growth and environmental responsibility.

At Al-Manar Plastic Pipes Factory, we are committed to delivering high-quality products that meet the highest international standards, ensuring safety, durability, and customer satisfaction.

# OUR COMPANY COMPANY SERVICE

Al-Manar Plastic Pipes Factory offers a comprehensive range of services to support its high-quality piping products

**1**

## **PRODUCT DEVELOPMENT AND CUSTOMIZATION**

We design and manufacture plastic piping systems tailored to meet specific client requirements across various industries, ensuring optimal performance and compliance with international standards.

**2**

## **TECHNICAL SUPPORT AND CONSULTATION**

Our team of experts provides guidance on product selection, installation procedures, and maintenance practices to ensure efficient and effective use of our piping systems.

**3**

## **QUALITY ASSURANCE AND TESTING**

We conduct rigorous quality control processes, including testing and certification, to guarantee that our products meet the highest standards of safety and reliability.

**4**

## **LOGISTICS AND DISTRIBUTION**

We manage the timely delivery of our products to clients, coordinating logistics to ensure that our piping systems are available when and where they are needed.

OUR COMPANY

# HOW COMPANY SERVICE WORK

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Duis nec massa nulla. Vivamus tempor ante eget nisi molestie imperdiet. Nunc in venenatis metus, non lobortis elit.

**1**

## TAILORED SOLUTIONS

The company collaborates closely with clients to understand their specific needs, offering customized piping products and solutions suitable for various industries and applications.

**2**

## EXPERT SUPPORT

A dedicated technical support team provides guidance on product selection, installation techniques, and maintenance, ensuring clients maximize the performance of their piping systems.

**3**

## QUALITY ASSURANCE

Through rigorous testing and adherence to international standards, the company ensures all products are durable, reliable, and safe for use in critical infrastructure.

**4**

## EFFICIENT LOGISTICS

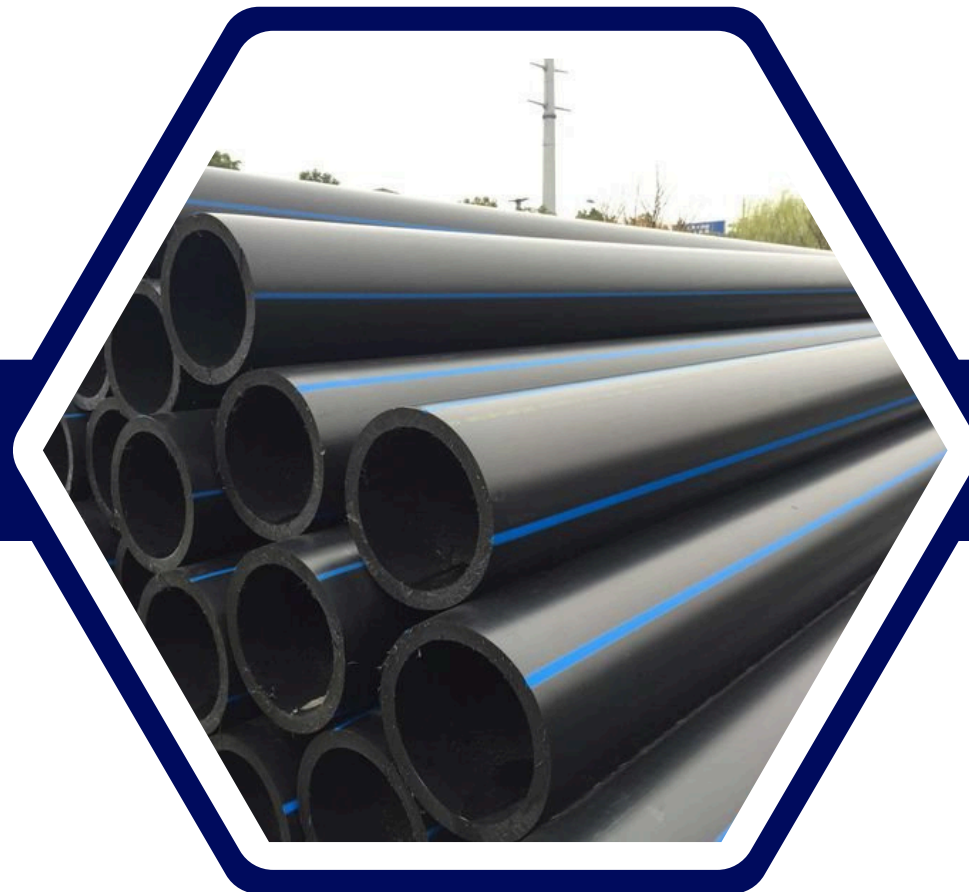

The company employs streamlined logistics and distribution networks to guarantee timely and reliable delivery, meeting project deadlines and client expectations.

COMPANY PRODUCT

# INTRODUCTION OUR PRODUCTS

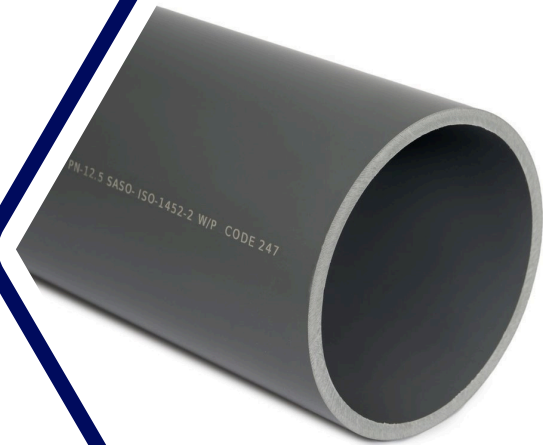

Al-Manar Plastic Pipes Factory offers a diverse range of high-quality plastic piping systems designed to meet the needs of various industries and applications. Our product line includes UPVC, CPVC, PPR, and HDPE pipes and fittings, each manufactured to the highest international standards for durability, safety, and efficiency

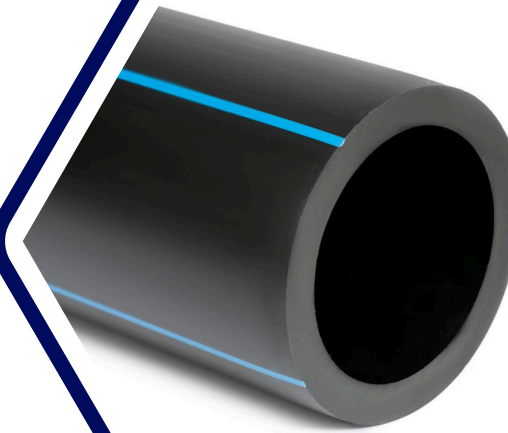

# COMPANY PRODUCT

## ALL OF OUR PRODUCTS

### UPVC PIPES

Manufactured from unplasticized polyvinyl chloride, these pipes are ideal for water supply, irrigation, drainage, and electrical conduits. They are non-toxic, corrosion-resistant, and feature a smooth interior surface to minimize flow resistance and prevent deposit buildup.

### CPVC PIPES

Made from chlorinated polyvinyl chloride, these pipes are suitable for hot and cold potable water distribution. They offer high chemical resistance and can withstand elevated temperatures, making them ideal for residential and industrial applications.

### PPR PIPES

Constructed from polypropylene random copolymer (Type 3), these pipes are designed for hot and cold water installations, as well as floor and central heating systems. They are known for their strength, stability, and resistance to high temperatures and chemicals.

### HDPE PIPES

High-density polyethylene pipes are used for high-pressure applications in civil engineering, agriculture, industrial processes, and telecommunications. They are strong, durable, and offer long service life with trouble-free installation.
